The good is that bit coin uses an algorithm to limit supply, unlike the variable of gold. or other commodities. However , two main issues. one the govt doesn't like it. money laundering, money transmitting, aiding and abetting all types of crimes. 2 . all transactions are arguably taxable, and therefore extra tricky, the bitcoin guys came to see me early in the process , and made it clear they were all willing to go to jail for their ideas. Im not. .. there is a way to do it. but it turns the bitcoin model on its head. . talk to you soon

Linda, thanks very much for the introduction.

Jeff, very nice to meet you. I'm at D this week, but after it's over, at your convenience, I would love to catch up with you on my new currency idea.

Thanks,

Bill
